

American Security Cabinets

RXD 710 (33 gallon) and RXD 810 (62 gallon)

- Largest capacity units in the market, allowing for less service saving you time and money.
- Liners available with or without destruction. For more details please call 866-268-4955.
- **NO CONTRACTS**, if you choose just our kiosk or choose both the kiosk and take back service you will NOT have to sign a contract. This allows you to choose how you dispose of the medication and if we are lucky enough to provide a take back service we must win your business **EVERYTIME**.
- Customization options. This will allow you to put **YOUR** logo on the kiosk. You are going to be the one doing the heavy lifting so why shouldn't you get the credit?
- Accessories for law enforcement. We are the only one in the market who offer law enforcement to add a sight glass to your unit. This will allow officers to look into the drop to see how full it is becoming without having to open it (convenience).
- Adjustable hopper, gives you the capability to totally control your take back program.
- Inner locking system versus padlock. Providing enhanced security.
