NOTES: – AWS – DEA# RM0432322, After the initial purchase, AWS can fulfill and bill SC DAODAS customers participating in the Opioid Prevention Grant in two ways. AWS can take a "Pre-Purchase" order in the amount requested for each authorized collector site. AWS can also provide our "Auto Reload" program which entails charging the price of one bundle to the applicable collector site when a full bundle is returned to AWS so there is always a backup bundle in place. Both options offer flexibility to the authorized collector based on their collected volume. Authorized collector locations will be responsible for installation of MedDrop receptacles.
