SC ECHO Evaluation: Final Year Evaluation Expectations

ECHO Meeting
September 10, 2019

Michael George
Al Stein-Seroussi
Elaine Dowdy Melvin
Data Collection Activities

- Young Adult Survey
- Coalition Capacity Survey
- MIS Spreadsheets
- Administrative/Archival Data
- CTC Data
- Site Visits/Key Informant Interviews
Data Collection Activities:
Young Adult Survey Wave 2

- PIRE conducted Wave 1 in Fall of 2017
- PIRE will administer survey in ECHO communities in October and November 2019
- PIRE will advertise on social media
- ECHO Coordinators can volunteer to help disseminate survey link through websites, listservs, social media
- PIRE will analyze data, focusing on aggregation across sites
- PIRE will test for differences in attitudes, beliefs, behaviors over time
Data Collection Activities: Coalition Capacity Survey Wave 2

- PIRE collaborated with ECHO Coordinators for Wave 1 in Spring of 2017
- PIRE will send survey link to ECHO Coordinators in Spring of 2020
- ECHO Coordinators will distribute link to coalition members and send occasional reminders
- PIRE will analyze data within communities and aggregated across communities
- PIRE will assess changes over time in capacity constructs over time
Data Collection Activities:
MIS Spreadsheets

• ECHO Coordinators will continue to enter **outputs** in the MIS spreadsheets
  – Checkpoint data
  – Compliance check data (if applicable)
  – Merchant education
  – Physician education
  – Drop boxes/take back events
  – Media specific to interventions (e.g., high visibility checkpoints)
  – Social marketing campaigns
  – Information dissemination
Data Collection Activities: MIS Spreadsheets

- MIS Data Collection (Ongoing)
  - ECHO Coordinators will continue to enter outcomes in the MIS spreadsheets
    - ECHO Coordinators are encouraged to obtain and enter data from local sources (e.g., coroner’s data about drug-related deaths, crash data from local law enforcement) to allow them to monitor outcomes as they occur
    - PIRE will continue to provide data when we receive them from state agencies
• PIRE will continue to collect data from state agencies
  – Crash data
  – ED data
  – Death data
  – SCRIPTS data
• PIRE will assess site-level and aggregate-level changes over time in outcomes
PIRE will examine opportunities to find consistent data from 2014 (or 2016) to 2018 (or 2020 if available)

PIRE will analyze data within site if possible and aggregated across sites

PIRE will assesses changes over time in attitudes, beliefs, and behaviors
Data Collection Activities: Site Visits/Key Informant Interviews

• PIRE will conduct a final round of site visits in the spring of 2020
• Review of data (outputs and outcomes)
• Accomplishments/Successes
• Barriers to success
• Efforts to overcome barriers
• Enhanced capacity, partnerships, systems
• Sustainability
