Data and Needs Assessment

Strategy: Data and Needs Assessment

Specific Strategy Type Implemented	Eligible Populations	Total Number Reached
Scan/mapping of opioid and/or stimulant drug issues and resources available in the community	General Population	Total population size of the municipality scanned/mapped
Tracking advertising of prescription drug disposal locations / Take Back events		Total population size of the municipality scanned/mapped
Mapping locations where permanent drop boxes are located		Total population size of the municipality scanned/mapped
Identifying and mapping hospitals, doctor's offices, and pharmacies that have permanent prescription drug drop boxes available to the general public		Total population size of the municipality scanned/mapped
Mapping of the number of locations distributing Detera bags or similar disposal products		Total population size of the municipality scanned/mapped
Data tracking and/or visualization software to build capacity to identify problem areas related to opioid and stimulant use, and to make solution-focused decisions		Total population size of the municipality tracked / data visualized

Safe Medication Disposal

Strategy: Safe Medication Disposal

Specific Strategy Type Implemented	Eligible Populations	Total Number Reached
Drug Take Back events in partnership with law enforcement agencies to allow community members to bring and dispose of unwanted prescription medications at designated locations such as police departments, pharmacy parking lots, retail store parking lots, etc.	General Population	Total number of people who bring and dispose of unwanted prescription medications at the Drug Take Back event. Estimate is acceptable.
Distributing and making available drug deactivation bags/buckets (Detera, DisposeRx, etc.) for community organizations, partners, and individuals	Law Enforcement, Coroners, General Population	Total number of people who receive a Detera bag. Estimate is acceptable.
Prescription drug drop boxes (installation of boxes and/or promotion of current box locations)	General Population	Installation: Total population size of the municipality where the drop box is installed
		Promotion: Number of people who received/viewed/heard information or messages that promoted use of the current drop box(es)
Sharing messages with organizations, businesses, and community members to promote safe use and safe disposal of unwanted opioid medications	General Population	Number of people who received/viewed/heard information or messages that promoted use of the current drop box(es)

Strategy: Education and Awareness

Specific Strategy Type Implemented	Eligible Populations	Total Number Reached
<p>Professional education for healthcare, behavioral health, law enforcement, and education professionals, etc., related to opioids and stimulants, such as Drug Impairment Training for Educational Professionals (DITEP), Advanced Roadside Impaired Driving Enforcement (ARIDE), Drug Recognition Expert (DRE) training, safe prescribing practices, use of SC SCRIPTS, academic detailing, etc.</p>	<p>Health-Related Professionals (e.g., prescribers and dispensers), School Resource Officers, School Nurses, Guidance Counselors, Teachers, Law Enforcement Officers, etc.</p>	<p>Number of people trained</p>
<p>Opioid- and stimulant-related educational programs or information-sharing for realtors, hospice programs, individuals caring for elderly family members at home, older adults, adults, college students, teenagers, patients, elementary school students, etc.</p>	<p>Realtors, Nurses, Social Workers, Caregivers, College Students, Adults, Older Adults, Youth, Patients, etc.</p>	<p>Number of people who received information</p>

Strategy: Education and Awareness

Specific Strategy Type Implemented	Eligible Populations	Total Number Reached
<p>Curriculum- and activity-based programs that have a focus on prescription drugs and stimulants:</p> <ul style="list-style-type: none"> <u>Operation Prevention</u> (\$10k) <u>Botvin’s Life Skills</u> (\$10k) <u>SPORT Prevention Plus Wellness</u> (\$10k) <u>Generation Rx</u> (\$25k) <u>Strengthening Families</u> (\$50k) <u>Communities That Care</u> (\$50k) <u>PROSPER</u> (\$50k) 	Youth, Families	Number of participants
Opioid and stimulant Drug-Free Workplace education and materials	Organizations, Businesses	Number of people who received the education and materials
Opioid and stimulant stigma reduction to promote messages that clarify opioid use disorder and other substance use disorders are diseases and not moral failures or weaknesses	General Population	Number of people who received/viewed/heard the stigma-reduction messages

Proper Medication Storage

Strategy: Proper Medication Storage

Specific Strategy Type Implemented	Eligible Populations	Total Number Reached
Distributing and making available proper medication storage boxes to individuals or to businesses (e.g., pharmacies, doctor's offices, senior care agencies) to provide to their customers	General Population	Number of people who received a proper medication storage box or device
Sharing messages with organizations, businesses, and community members to promote safe use and proper storage of medications	General Population	Number of people who received/viewed/heard messages that promoted safe use and proper storage of medications

Community Event

Strategy: Community Event

Specific Strategy Type Implemented	Eligible Populations	Total Number Reached
Hosting opioid- and stimulant-related “town hall” meetings / community forums <i>(Events can be held virtually.)</i>	General Population	Number of attendees
Community social events and gatherings that promote drug-free, healthy family and social bonding among community members in safe spaces <i>(Events can be held virtually.)</i>	General Population, People in Recovery, Children and Spouses of People in Recovery, Active-Duty Military, Veterans	Number of attendees

Capacity Reporting Guidance

Although Prevention SOR2 is a strategy implementation project, capacity-building activities for subgrantees are allowed. Please use the guidance below to report Prevention SOR2 capacity activities.

For the intents of the project, capacity relates to services and resources, such as information and training received by the subgrantee. Examples of Prevention SOR2 capacity-building activities include: attendance at conferences and completion of facilitator training for curricula, etc.

Key Prevention SOR2 Capacity Principles:

- Services **received** by the subgrantee = Capacity
- Services **provided** by the subgrantee to populations = Strategy Implementation
